SECTIONS FROM THE CITY OF WALKER ZONING ORDINANCE

PLEASE READ CAREFULLY BEFORE COMPLETING PART 2 OF THE APPLICATION

Sec. 19.03 - Jurisdiction.

The board of zoning appeals shall hear and decide appeals from and review any order, requirement, decision or determination made by the building inspector, and shall hear and decide other matters referred to it or upon which it is required to pass under the provisions of this chapter. The board of appeals may reverse or affirm, wholly or partly, or may modify the order, requirement, decision or determination appealed from and shall make such order, requirement, decision or determination as in its opinion ought to be made as to the premises, and to that end shall have all the powers granted under the provisions of Act No. 110 of the Public Acts of Michigan of 2006, as amended. Where there are practical difficulties or unnecessary hardships in the way of carrying out the strict letter of this chapter, the board of zoning appeals shall have power in passing upon appeals to vary or modify rules, regulations or provisions so that the spirit of this chapter shall be observed, public safety secured and substantial justice done.

Sec. 19.04 Variances.

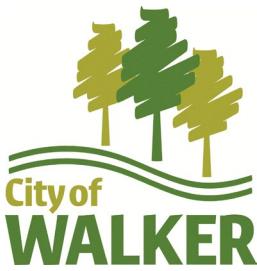

The board of zoning appeals may grant a variance from the provisions or requirements of this chapter if the board finds from reasonable evidence that all the following facts and conditions exist:

- (A) That there are exceptional or extraordinary circumstances or conditions applying to the property in question as to the intended use of the property that do not apply generally to other properties in the same zoning district.
- (B) That such variance is necessary for the preservation and enjoyment of a substantial property right similar to that possessed by other properties in the same zoning district and in the vicinity. The possibility of increased financial return shall not of itself be deemed sufficient to warrant a variance.
- (C) That authorizing such variance will not be of substantial detriment to adjacent property and will not materially impair the intent and purposes of this chapter or the public interest.
- (D) That the condition or situation of the piece of property or the intended use of such property for which the variance is sought is not of so general or recurrent a nature as to make reasonably practicable the formulation of a general regulation for such condition or situation.
- (E) With respect to the use variance, that the property for which a variance is sought cannot reasonably be used in a manner consistent with existing zoning.

Sec. 19.10 Appeals from the ZBA.

Any person or any department, board or bureau aggrieved by any decision of the board of appeals may seek review of such decision by a court of record in the manner provided by the laws of the state.

Please refer to the City of Walker Zoning Ordinance for all other sections regarding the Zoning Board of Appeals.
